PROJECTS

Amazon Clone <https://amazon-web-srgf.onrender.com/> 🌐

E-Commerce Web Application

- Developed an e-commerce web application inspired by Amazon's core shopping experience.
- Implemented product browsing, product details, cart functionality, and responsive user interface.
- Focused on reusable components and responsive design for different screen sizes.

Sellora <https://sellora-e610.onrender.com/> 🌐

Online Marketplace Web Application

Developed an OLX-style marketplace where users can create, manage, and browse product listings. Implemented features such as user authentication, product listing management, wishlist, search/filter functionality, and chat functionality. Worked with frontend and backend integration using modern web technologies
